

November 2008 Featured Products Karat Gold and Sterling Silver Clad

A Precious Metals Solution for
Today's Market

Through extensive experience and our ability to provide solutions that are impossible or challenging for most organizations, Stern-Leach meets the needs of today's market with our ability to *mechanically clad precious metals*.

What does that mean for the jewelry industry?

A *cost effective complete precious metals solution*; Stern-Leach has the unique ability to **permanently fuse** Karat Gold and Sterling Silver together. Gold cladding to Sterling Silver allows for distinctive design elements, such as etching and diamond cutting, to reveal a two-tone effect.

For additional information on the benefits of using clad and a comparison between clad and gold filled visit www.sternleach.com and view the Featured Products page.

Stern Leach offers clad in sheet, tubing, wire and fancy wire. For a complete product listing please contact one of our Customer Service Representatives at 1-800-247-2754.
